

**Tattoo shop-** They want a website/social media that can be constantly updated and have information pop up and keep that updated.

Problems- too accessible, Facebook messenger Instagram messenger and phone number and personal social medias and shops social medias. Looking for something more centralized. Heres the artists we have heres what they specialize in and links to book with each of them. Here is what I want to do. Some ppl know who they want to book with already.

Have that booking page

But also have the ability for people to be able to contact the artist they want. Have the ability to book with the specific artist. **Some way to inquire about generic questions as well.**

If there was a way to sell Gift Certificates (they use Square) trying to expand that during the holiday season. They want to sell more during the holidays. Easier when someone can come in and get them in person but sometimes, they don't live here or they want it to get done remotely.

Photos- them while working.
